Maxi-View Burglar Bars

Design

- The Armed Bar products makes it possible to protect the home owner with a 24/7 active alarm system in addition to having a transparent physical barrier. T

Smart Technology

- The Armed Bar products makes it possible to protect the home owner with a 24/7 active alarm system in addition to having a transparent physical barrier. T

HotLock

- The Hot Lock unit forms part of the security barrier and fixes the transparent burglar bar to any frame. The rapid unlocking mechanism allows the occupants to remove the bar and bend the bars away to allow exit. The unit can be connected to any 24/7 active alarm system and will send a panic signal immediately after removing the bar from the casing.
