

Maxi-Fence Medium Mesh Plus

Secure Post System

The panels are fixed laterally onto the posts and are secured with anti-vandal metal security fixators. The H-shape welded tubular posts (70 x 44mm), are galvanised, PVC coated and supplied complete with a polyamide cap and accessories.

Square Post System

The panels are fixed on the front side of the posts by means of fixtators and security bolts. The welded square tubular posts (76 x 76 x 1,60mm) have inserts for fixing the panels with the fixtators and are covered with a plastic cap.

Panels

The panels have a width of 2500mm and are available in a range of heights, from 1030 to 2030mm. The panels have vertical barbs of 30mm at one side, the barbs can be placed at the top or at the bottom. The horizontal reinforcements give the panels extra rigidity. The mesh apertures are 100 x 50mm. Core wire diameter: 3,65mm. After PVC coating: 4,05mm

Gates

The Medium Mesh Plus system is finished and safely equipped with high tech gates Nyloforor Robusta: single and double gates, swing and sliding gates.

Coating Techniques

Panels made out of galvanised wires. A pre-treatment process guarantees that the PVC coating fuses to the product surface and ensures maximum bonding. The posts are galvanised inside and outside (min. coating 275g/m²) in accordance with SANS 10224-2. Afterwards an adhesion coating is applied and finally the posts are PVC coated *min. 60 micron).

Colours

Nylofor 3-M is available in green RAL 6005 or anthracite RAL 7021
Other colours on request.

10-Year Guarantee

The state of the art PVC coating technology ensures that we are able to offer a 10-year anti-corrosion guarantee on the sytemwhen used in full (Post-Panel-Post).

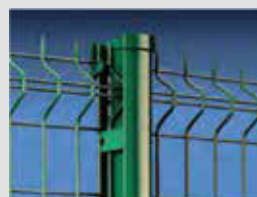

Attractive Design

Secure Post System

Extra-Long Lifetime

Benefits

Extra long lifetime

The wire is galvanised, resistance welded and plastic coated with maximum adhesion. Maxidor is coating technology is state of the art and guarantees and extra long lifetime.

Rigidity and Quality

The panels are heavy welded mesh with rectangular apertures and horizontal reinforcements which give the panels high rigidity. Maxidor Meduim Plus provides high quality at low cost.

Rapid and Fault-Free Installation

All components are perfectly harmonised with each other and developed to give a professional quality fence, installed with maximum efficiency.
